Win a free GPS in our photo contest!

Special Edition

In honor of our first anniversary, we're giving away a complete GPS system for your Windows laptop or Windows Mobile handheld device! All you have to do is send in a photograph of yourself or your friends and family displaying the eTravelogue logo somewhere fun on your next road trip this summer.

The grand prize winner will receive a copy of Microsoft Streets and Trips 2005 with GPS, Microsoft's map and route planning software complete with a USB GPS receiver. This package is valued at over \$125!

Our top five runners-up will win snazzy eTravelogue t-shirts. The winning photos will be included in the next version of our screensaver, available for download at our site.

For more details, complete contest rules and how to enter (and to get the logo), visit our contest page at <http://www.etravelogue.com/contest.asp>

Thanks again for using our website to plan your road trips!
